

N° 2091

The No 2091 octagonal lever combines sleek lines with soft curves to create a classically proportioned handle. Often specified with the No 1240 octagonal knob on projects requiring both knobs and levers, the No 2091 is also versatile in contemporary and traditional interiors. The lever is usually used on double doors or for narrow backset conditions. Alternative rose designs can be provided for use with this handle. The handle is available in the full range of Nanz plated and patinated finishes. It can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows.

Length: 3-7/8"

Projection: 2-1/2"

Rose Diameter: 1-7/8"

Lever Style: Transitional

Collection: Octavio
