

N° 21.29

The faceted surfaces of the Prismatic backplate are here combined to the classic design of the toothbrush holder, which holds up to five toothbrushes. A boss raised by a cove fixes the elegantly curved holder to the arched post, which in turn is secured by an ogee-profile, astragal-encircled backplate. A comprehensive suite of aesthetically related bath hardware is also available, including towel rings, robe hooks, and glass towel rods, as are twelve Nanz plated and patinated finishes.
