NANZ

N° 2107

The No 2107 lever is composed of a simple cylinder and a flaring shank that meet amongst a series of cusped ogival curves. The handle combines basic geometry and traditional forms to create a lever of contrasting beauty and simplicity. The ogival curves are repeated in both the cylinder and rose. The lever is available in all NANZ plated and patinated finishes. This handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. The lever measures 4-1/8" long with a projection of 2-5/8".

LENGTH	4-1/8"
PROJECTION	2-5/8"
