

No 2118

The No 2118 broad-faced faceted lever rests on an elongated cove shaped shank. The rose shown contrasts and balances the strict geometry of the handle with an ogival curve and rounded astragal. It can be ordered with a host of rose designs. The handle is available in our full range of plated and patinated finishes including burnished brass, dark oxidized bronze, polished nickel and antique silver. This handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows.

Length: 4-3/8"

Projection: 2-3/8"

Lever Style: Transitional

Collection: American Revival
