

N° 2124S

The narrow S curve of the N° 2124 313 spirals out from the shank. The organic aesthetic of the handle inspired by Baroque forms is suitable for traditional interiors. The circular rose with four exposed screws complements the lever's contours. It can be used with traditional full-mortise locksets or can be manufactured for use with multi-point doors as well as tilt & turn windows. All Nanz plated and patinated finishes are available.
