

N° 2135

The swelling profile and compound turned finial of the No 2135 lever originated in Baroque Europe. Baroque forms were disseminated throughout the New World in the 18th century, where they acquired new and distinct character. This lever is suitable for eclectic as well as traditional interiors. A variety of alternative rose designs can be provided for use with this handle. The handle can be used with full-mortise locksets or manufactured for use with multi-point doors, tilt & turn windows and lift & slide doors. Recommended finishes include polished brass, burnished brass, dark oxidized bronze pewter and silver plate. All NANZ plated and patinated finishes are available.

Length: 4-1/8"
