

## N° 2136

The motif of the No 2136 lever originated in the exuberant curving forms of Baroque Europe. The swelling profile of the handle terminates in an acorn, while the face of the rose continues the theme with an ogee profile. A variety of alternative rose designs can be provided for use with this handle. The handle can be used with full-mortise locksets or manufactured for use with multi-point doors, tilt & turn windows and lift & slide doors. The lever measures 4-5/8" long with a projection of 2-3/8". All NANZ plated and patinated finishes are available.

Length: 4-5/8"

Projection: 2-3/8"
