

N° 2142

The No 2142 Baroque Scroll was popular in the later part of the 19th century and typically found on cremone mechanisms. The pronounced S-shaped handle curves up to a platform, ringed by a deep ogee. This handle can be provided with a vast selection of alternative door hardware. Appropriate finishes include, but are not limited to burnished brass, antique silver, pewter and dark oxidized bronze. It can be used with full-mortise locksets or manufactured for use with multi-point doors.
