

NANZ

N° 21542DK 513 LLS

Designed in collaboration with Suzanne Tucker, the Bel Air collection is luxurious “house jewelry” at its best. The collection can be customized with a variety of precious materials: mother-of-pearl, lapis lazuli, tiger eye, malachite, ebony... the possibilities are endless. The N° 21542DK 513 LLS neoclassical lever’s tapering handle is bounded by double astragals with diamond knurling and constructed from Lapis Lazuli. The astragal design and delicate knurling are repeated on the face of the N° 52292DK 181 rose. Shown here in Polished Silver, this handle is available in all NANZ plated and patinated finishes and various precious stones. This lever may be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows.
