NANZ®

No 21542DK 513 MOP

Designed in collaboration with Suzanne Tucker, the Bel Air collection is luxurious “house jewelry” at its best. The collection can be customized with a variety of precious materials: mother-of-pearl, lapis lazuli, tiger eye, malachite, ebony.... the possibilities are endless. The No 21542DK 5-1/8" neoclassical lever’s tapering handle is bounded by double astragals with diamond knurling and constructed from Mother of Pearl. The astragal design and delicate knurling are repeated on the face of the No 52292DK 238 rose. Shown here in Polished Silver, this handle is available in all NANZ plated and patinated finishes and various precious stones. Also available in a 4-1/8” length, this lever may be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows.
