

## N° 2175

The tapering handle of the No 2175 Haussmann lever is framed by two zones of compound molding: between the shank and the handle, and at the end, terminating in a flattened sphere with a finial detail. While the lever is shown with an oval rose and exposed screws, a round rose with hidden fasteners is also available. This handle can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. Recommended finishes include antique silver and brass, burnished brass and pewter. All NANZ plated and patinated finishes are available.

Length: 4-1/8"

Projection: 3"

Backplate: 1-1/4" x 2-5/8"

Lever Style: Transitional

Collection: Georgian
