

No 2228

The No 2228 lever evokes the drum-shaped motif of the turn of the 20th century. The lever's design treats traditional form with the simplicity of modern elegance; the handle is described on either end by a cylindrical band bisected by a cove. The drum motif repeats itself in the flat rose, which is also circumscribed by a cylindrical band. The lever was designed to accompany the No 1228 knob, and can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. All NANZ plated and patinated finishes are available.

Length: 4-5/8"

Projection: 2-7/8"

Lever Style: Transitional
