

N° 2235

The No 2235 lever, which reflects the motif of the S-curve, originated in the robust forms of Baroque Europe. The swelling profile of the handle terminates in an ogival boss, while the face of the rose continues the theme with a shallow cove profile. The lever is suitable for eclectic as well as traditional interiors. It can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. Recommended finishes include polished nickel, burnished brass, dark oxidized bronze, and antique brass. All Nanz plated and patinated finishes are available. A variety of alternative rose designs can be provided with this handle.

Length: 4-1/8" 5-1/2"

Projection: 2-7/8" 3-1/4"

Lever Style: Transitional

Collection: Edwardian
