

**NANZ**

N° 2821 388

The N° 2821 388 offset modern lever and racetrack escutcheon is designed to operate two point casement window mechanisms, the lever design is based on a design by Gio Ponti from the 1950s.. The escutcheon incorporates a positive stop mechanism which holds the lever in a locked or operable position. All NANZ plated and patinated finishes are available.

Length: 3-7/8"

Projection: 2-3/16"

Collection: Gio Ponti
