

NANZ

N° 3004F 600 x 400

The Bel Air collection is luxurious “house jewelry” at its best. The N° 3004F faceted olive knuckle hinge employs an interior bearing system for smooth operation with standard or heavy doors. The faceted knuckle complements the precious stones throughout the collection. The parabolic profile of the knuckles presents a handsome decorative element when an alternative to butt hinges is required. Smaller versions, the N° 3001F and N° 3002F, are suitable for cabinetry. Shown here in Burnished Gold, all NANZ plated and patinated finishes are available.
