NANZ

N° 3573BF

The No 3573BF two knuckle lift-off butt hinge recalls the International Modernism of the early 20th century. Ball finials are shown. While modern in design, the simple cylindrical knuckles make the hinge suitable for traditional interiors as well. The hinge can be manufactured with any of our full range of finials. NANZ has also manufactured custom decorative bushings to fit between the two knuckles. Custom sizes are available. The hinge is handed; a right-hand hinge is shown. All NANZ plated and patinated finishes are available.
