

Nº 3582

The No 3582 two knuckle lift-off butt hinge has a discreet bushing between each reeded knuckle, and shallow-domed finials ringed with an astragal. A large variety of finial designs are available to achieve a desired look. While the hinge is neoclassical in design, its linear quality makes it suitable for contemporary interiors as well. Custom sizes can be manufactured. The hinge is handed; a right-hand hinge is shown. All Nanz plated and patinated finishes are available.
