

N° 3946

The No 3946 is available in a variety of plated and patinated finishes; hinge plates are typically used in conjunction with butt hinges and are used as a decorative element for important doors. As the length and width are highly dependent on the style and detailing of the door they are always manufactured to order. Prior to ordering the architect or designer should provide an elevation and section of the door and jamb. Hinge design may also be modified if so desired.

Height: 4-1/2" 4-1/2"

Width: 17" 18"
