

NANZ

N° 5513

The N° 5513 rosette is composed of two steps connected by an elegant ogival rise that is seated on a square facade and fenced by a stepped astragal. It is highly reminiscent of 20th century Georgian styling and, as designed, can accompany a vast selection of knobs and some levers. It can be manufactured to be used with any handle if required. The rosette is available in all NANZ plated and patinated finishes.

Height: 2"

Width: 2"
