

### N° 5601

The N° 5601 demilune escutcheon with ovolo edge molding is designed to operate tilt & turn window mechanisms. Though shown with the N° 2175, it can be used with most Nanz levers. The escutcheon incorporates a positive stop mechanism which holds the lever in a locked or operable position. All Nanz plated and patinated finishes are available.

Height: 3"

Width: 1-1/4"

Collection: Georgian
