

NANZ

N° 5601B

The N° 5601B beaded demilune escutcheon is designed to operate tilt & turn window mechanisms. Though shown with the N° 2015, it can be used with most NANZ levers. The escutcheon incorporates a positive stop mechanism which holds the lever in a locked or operable position. All NANZ plated and patinated finishes are available.

Height: 3"

Width: 1-3/8"

Collection: Ornamental
