

NANZ

N° 56132

The N° 56132 racetrack escutcheon is designed to operate tilt & turn window mechanisms. Though shown with the N° 2505, it can be used with most NANZ levers. The escutcheon incorporates a positive stop mechanism which holds the lever in a locked or operable position. All NANZ plated and patinated finishes are available.

Height: 2-5/8"

Width: 1-1/4"
