

## N° 5617

The No 5617 rectangular escutcheon with ovolo edge molding is designed to operate tilt & turn window mechanisms. Though shown with the No 2013, it can be used with most NANZ levers. The escutcheon incorporates a positive stop mechanism which holds the lever in a locked or operable position. All NANZ plated and patinated finishes are available.

Height: 2-5/8"

Width: 1-1/4"

Collection: Georgian
