

N° 5728

The N° 5728 escutcheon plate possesses a shallow beveled edge that is banded by a rectangular astragal and shown here with the No 1011 doorknob. It features exposed fasteners and is provided with oval-head screws to match the surrounding hardware. Subtle in ornamentation, the escutcheon is the perfect complement to both traditional and contemporary interiors. Although shown in one size, custom sizes can also be manufactured. All Nanz plated and patinated finishes are available.

Height: 4-1/4"

Width: 8"

Projection: 1/4"
