

N° 5751PC

The N° 5751PC demilune escutcheon plate is comprised of stepped astragal molding around the edge and small cove forming a transition to the face. The escutcheon is designed to be used with Multi-Point locking systems and can be provided with a cut-out for profile cylinder or thumb turn. As Multi-Point systems vary greatly in configuration, it is necessary to provide exact specifications of the lock being used on a project before the escutcheon can be manufactured. Most Nanz levers can be modified for use with Multi-Point locks. Custom sizes are available upon request. All Nanz plated and patinated finishes are available.

Height: 9-3/8"

Width: 1-5/8"

Collection: Edwardian
