

## Nº 5753KE

The  $N^{\circ}$  5753KE escutcheon plate with stepped astragal edge is designed to be used with Multi-Point locking systems and can be provided with a cut-out for profile cylinder or thumb turn or simply applied as a push plate. As Multi-Point systems vary greatly in configuration, it is necessary to provide exact specifications of the lock being used on a project before the escutcheon can be manufactured. Custom sizes are available upon request. All Nanz plated and patinated finishes are available.
