

N° 5843KE

The N° 5843 Louis XVI directoire escutcheon is defined by its linear simplicity and clean form. Designed to be used with Multi-Point locking systems, the escutcheon can be provided with a cut-out for profile cylinder or thumbturn or simply applied as a push plate. As Multi-Point systems vary greatly in configuration, it is necessary to provide exact specifications of the lock being used on a project before the escutcheon can be manufactured. Most NANZ levers can be modified for use with Multi-Point locks. Custom sizes are available upon request. All NANZ plated and patinated finishes are available.

Height: 8-3/4"
Width: 2"
Projection: 1/8"
