

N° 5902PP

The capsule-shaped escutcheon plate with a stepped astragal around the edge can be used simply as a push plate, or drilled for use with a handle, cylinder or thumb turn. The plate works equally well in a variety of décors. Most NANZ levers, knobs, and thumb latches as well as cylinders and thumbturns can be ordered with the escutcheon. A range of sizes is available depending on application, and two or four screw holes can be specified. All NANZ plated and patinated finishes are available.

Height: 12"

Width: 3"

Projection: 1/4"

Collection: Georgian
