NANZ®

N° 6027ST

The 6027ST round recessed thumbturn with a straight astragal face detail can be used alone on a pocket door or as an auxiliary pull to operate a deadbolt. It is available for passage doors, with a thumbturn as pictured, or with a keyhole. It can also be specified with a roped or beaded astragal. All NANZ plated and patinated finishes are available.

DIAMETER	PROJECTION	DEPTH
