

NANZ

N° 6031

NANZ

The No 6031 drop ring pull is traditionally paired with surface-mounted rim locks, but also can be used as a dummy pull. It comprises a penannular ring which tapers and then flares on either side of the pivoting hub. The pull measures 3" at its widest point. The backplate with four exposed fasteners measures 2-1/4". All NANZ plated and patinated finishes are available.
