NANZ

N° 6089

The No 6089 round, recessed finger-pull reflects the modern, functional form that became popular at the turn of the 20th century. The clean lines and even proportions, however, make this simple pull appropriate for a variety of styles and interiors. The dimensions make it suitable for either pocket doors, where the visible hardware is to be kept to a minimum, or for window or cabinetry hardware. The pull is also available as a thumbturn and a keyhole escutcheon. All NANZ plated and patinated finishes are available.

DIAMETER	PROJECTION	DEPTH
1-3/4"	1/8"	1/2"
2"	1/8"	1/2"
2-1/2"	1/8"	1/2"
3"	1/8"	1/2"
		1/2"
		3/8"
