

N° 6791 TLC

The N° 6791 TLC thumbblatch is typically used for main entry doors. The design combines a Bauhaus pull with a racetrack escutcheon. It may be used with a lever or knob on the interior side of the door. The pull pairs with the No 2921 lever, based on a design by Gio Ponti from the 1950s. NANZ offers this product in a variety of plated and patinated finishes. Shown here with a cylinder, it may also be provided in a passage or patio function.
