NANZ

N° 7958 305R

The No 7958 305R surface bolt is typically used on the passive leaf of a double door at top and bottom. The bolt, with a roped Georgian knob, provides a decorative element, suitable for a variety of periods and styles. It can be used in conjunction with the No 7961 cremone bolt or a mortise lock on the active leaf. All NANZ plated and patinated finishes are available.
