

N° 8008

The N° 8008 cabinet knob reflects the International Style of Modernism and finds its aesthetic value in the paring down of forms and the use of industrial materials of the 1920s. Typical of the design style, a single step joins the knob to the straight shank and a cove detail transitions to the simple flaring rose. The knob is available in two sizes and in all NANZ plated and patinated finishes.
