N° 8018H

A hand-hammered, compressed sphere surmounting a shank with gently curved sides and stepped base forms the No 8018H Georgian round cabinet knob. The classic proportions make the knob suitable for a variety of styles and periods. It is often specified with the companion No 1018H Georgian hammered round knob, which is manufactured in a variety of sizes for full-sized doors. The No 8018H is shown here with an optional rosette. The knob can be provided a variety of plated and patinated finishes.

DIAMETER	PROJECTION
3/4"	7/8"
1"	1"
1-1/4"	1-3/8"
1-1/2"	1-5/8"
1-3/4"	1-7/8"
