

N° 8084

The No 8084 cabinet knob draws from a 19th-century English design and reflects the style of the Arts and Crafts movement. It achieves a rhythmical pattern through the repetition of simple ribs, which gradually diminish in width as they progress along the circumference. The linear design makes the knob suitable for both traditional and contemporary interiors. It is often specified with the companion No 1084 knob, which is manufactured in a variety of sizes for full-size doors. The knob is shown here with optional rosette. All Nanz plated and patinated finishes are available.
