Nº 8204R

The Nº 8204R cabinet knob was often used in Neoclassical Park Avenue apartment buildings of the 1920s. It is provided in four sizes. A roped knurl complements the ogee face and torus edge of the knob, which is also available with a beaded or plain astragal. The shallow cove of the shank is echoed in the edge of the optional rosette, which is available at an additional cost. It is often specified with the companion Nº 1204 knob, which is manufactured in a variety of sizes for full-sized doors. All Nanz plated and patinated finishes are available.
