

N° 8205

The boldly scaled-up molding profile of the No 8205 Georgian cabinet knob consists of a bullnose edge that flares slightly outwards at the top, joining a broad, shallow ogee which rises to a large boss at the center. It is often specified with the companion No 1205 knob, which is manufactured in a variety of sizes for full-size doors. The knob is available in five sizes and is shown here with an optional rosette. All Nanz plated and patinated finishes are available.
