

N° 8310

The curved edge of the No 8310 Georgian cabinet knob rises to a shallow ogee ringed with a sunken boss at center. Seen from the face, it creates the effect of a bullseye. An architectural inventiveness appears in the repeated and varied molding details. The knob is available in four sizes. It is often specified with the No 1310, which is manufactured in a variety of sizes for full-sized doors. Finishes available include burnished brass, antique gold, pewter, or antique silver, as well as all Nanz finishes.
