

# NANZ

## N° 9107

The N° 9107 is a simple lever designed to operate "Lift and Slide" doors. The beveled escutcheon incorporates a positive stop mechanism that holds the lever in a locked or operable position. The detail on the face of the shank and the edge of the escutcheon keeps it from looking too severe and makes it suitable for a variety of different styles and interiors. All NANZ plated and patinated finishes are available.

Length: 7-1/4"

Backplate: 4-1/2" x 1-1/2"

Collection: The Drum
