

N° 9111

The N° 9111 half profile cylinder with integral thumbturn is designed for use with European Multi-Point locking mechanisms. Most NANZ handles can be adapted to Multi-Point locks for use in conjunction with this cylinder. Different lengths are available, depending on door thickness and other conditions. All NANZ plated and patinated finishes are available.

Depth: 3-1/2"

Height: 1-1/4"
