NANZ

Nº 9124

The Nº 9124 is a simple lever designed to operate “Lift and Slide” doors. The beveled escutcheon incorporates a positive stop mechanism that holds the lever in a locked or operable position. The handle is accented by a bold finial detail juxtaposed against dual-roped astragals that ring each end of the gently tapering handle. This classical design streamlines the Georgian style and is suitable for contemporary as well as traditional interiors. All NANZ plated and patinated finishes are available.

LENGTH	7-1/2"
BACKPLATE	4-1/2" x 1-1/2"
