NANZ

Nº 9158

The No 9158 knife-edge pull, which is mortised into the edge of a single or double door, is ideal when a minimum of hardware is required. When the door is closed, only the 5/16" wide edge is visible. It measures 4-1/4" x 5/16" with a depth of 3/4" or 1". All NANZ plated and patinated finishes are available.
