

N° 9413

The N° 9413 casement fastener with rim strike, suitable for inswing or outswing windows, can be provided with different strikes for varying conditions. It is operated by the Georgian-inspired tapered handle, which is defined on either end by a plain astragal and ends in an ogee-shaped dome. The rectangular backplate with four exposed screws emphasizes the simplicity of the design. It is suitable for a variety of traditional interiors. All Nanz plated and patinated finishes are available.

Length: 2-3/4"

Projection: 2"

Backplate: 2" x 1"

Collection: Georgian
