

NANZ®

N° 9717

The 9717 door knocker combines sleek lines with soft curves to create a unique combination of angular and organic forms. The octagonal arms of the drop ring taper and meet at a central disc framed by a cross pattée with a style reminiscent of the late 19th century. All NANZ plated and patinated finishes are available.

Height: 3-3/4"

Width: 4"

Rose Diameter: 2-7/8"
