Basin Set 155

Designed for 3-hole basin decks, this widespread set is constructed from solid brass and features FLUHS manufactured ceramic valve cartridges. Widespread configurations may be customized by choosing from our diverse range of handles, faucets, bells, bonnets and rod finials. Matching bath and shower fittings are offered, as are coordinating bath accessories and cabinetry. All fittings meet the highest standards in health and safety including NSF61 and AB1953 compliance. A variety of plated and patinated finishes are offered. Contact one of our offices for more information and assistance with specification.
