

Spout 21

The bespoke plumbing collection from The Nanz Company offers custom bath, shower and basin fittings to designers and builders for high end projects. All fittings are constructed from solid brass and are equipped with precision manufactured valves designed to prevent scalding and conserve water. The Nanz Bauhaus collection, based on designs by Walter Gropius from the 1920s, embodies the School's belief in simple geometric forms as the basis of good design. With coordinating bath, shower, basin fittings and accessories, the collection can be coordinated throughout a project.

Spout Height: 2"

Projection: 9"

Product Code: AQ-SBW15.5506.D0

Collection: Bauhaus
