NANZ®

No 2012

The No 2012 lever, inspired by the French Moderne style of the 1930s, was designed for a New York City town house in 1994. The faceted handle, gently swelling and then tapering to a rounded end, forms a continuous curve with the shank. The lever is a marriage of composed functionalism and elegant design. Please note that this listing is for a dummy lever, and includes a rose and dummy spindle. Please email quickship@nanz.com if alternate door functions are required. The lever is available in a wide variety of plated and patinated finishes. The handle, available in two sizes, can be paired with a variety of different roses. It can be used with traditional full-mortise locksets or manufactured for use with multi-point doors and tilt & turn windows. A selection of related products is also available.

Length:	4" 5-1/2"
Projection:	2-7/8" 3-5/8"
Collection:	Octavio
