

N° 2075

The No 2075 lever is traditional in form and reminiscent of American Moderne design of the 1930s. The handle replaces classical molding details with a series of steps at the handle's end and at the rose to invoke a sense of solidity and structure. This listing is for a Dummy Lever and includes a rose with a dummy/fixed spindle. Knobs are sold individually. If you require an alternate door function, please email quickship@nanz.com

Length: 5-1/4"

Projection: 2-7/8"
