NANZ

# N° 2228

The No 2228 lever evokes the drum-shaped motif of the turn of the 20th century. The lever's design treats traditional form with the simplicity of modern elegance; the handle is described on either end by a cylindrical band bisected by a cove. The drum motif repeats itself in the flat rose, which is also circumscribed by a cylindrical band. This listing is for a Dummy Lever and includes a rose with a dummy/fixed spindle. Knobs are sold individually. If you require an alternate door function, please email quickship@nanz.com
